### Activities and Outings Skill Level Rating Codes

The Angeles Chapter Safety Committee has established the following classifications for all chapter-sponsored outings to differentiate the levels of skill required of participants and event leaders. Classifications do not relate to outing strenuousness.

C -- Events conducted by a non-Sierra Club entity (e.g., concessionaire).

O -- Uncomplicated outings such as city walks, bike rides, trail hikes, backpacking. May involve simple off-trail hiking not requiring navigation skills. Climbing level: Class 1 terrain.

O-2 -- An "O" backpack.

I -- Outings that involve cross-country travel where navigation is necessary. Rougher ground than O outings may be traversed, and the use of hands for balance may be necessary. Includes outings that have snow travel or skiing on easy terrain.

Climbing level: Class 2 terrain.

M -- Moderate-level climbing: Class 3 terrain. On rock, the hands are used for climbing. Some participants may want a safety belay. On snow, safety dictates the use of ice axes and the ability to self-arrest. MR: "M" + Restricted.

E -- More exposed than M outings. Climbing on Class 4 terrain. Rock climbs will use a rope for all in the party. On snow, steeper terrain than M outings is permissible, and safety dictates the use of crampons. ER: "E" + restricted.

T -- Technical outings requiring specialized skills as identified in the sponsoring group's safety policy.

We will conclude by dipping our toes in the Pacific Ocean below Gladstone's Restaurant. We'll then toast Willy's memory with liquid refreshments at Gladstone's. Meet at 7:30 AM in the first parking lot on the right on Los Liones (PCH to Sunset Boulevard, north 0.3 mile, left on Los Liones) and shuttle to the Top of Reseda Trailhead. The area around the trailhead belongs to the Santa Monica Mountains Conservancy, which imposes a parking fee. California State Parks parking passes are not valid here. We are on a two day adventure in the Ansel Adams Wilderness in search of the vistas of the Ritter Range from atop Iron Mountain with the bonus of visiting at least three lakes. Total two day stats: 19mi & 5300ft gain. Sat morning we begin near Devils Postpile on the Beck Lake trail, leave it to go cross country to visit Gertrude Lake and finally make camp near Anona Lake (8 mi, 2600ft). Sun morning we rise before daybreak to summit Iron and return via Fern Lake trail (11mi, 2700ft) to complete our ambitious loop. The name "Devils Postpile" refers to a dark cliff of columnar basalt. Radiometric dating indicates the formation was created by a lava flow at some time less than 100,000 years ago.

Join us for this strenuous but amazingly scenic trip up into the Thousand Island Lakes region of the Ansel Adams Wilderness to climb this often overlooked peak in the Ritter Range. Saturday we'll pack in 9.0 miles (4,350' gain) via the Rush Creek trailhead out of June Lakes and set up camp. That night we'll enjoy a festive Happy Hour under nearly moonless night skies. Sunday we'll set out at first light for the summit of Mt Davis over steep, sometimes loose, always rugged, cross-country terrain. We'll enjoy phenomenal views up top and then return to camp the way we came up for a day's total of about 5 miles (2,700' gain). Another festive Happy Hour that night, and then Monday morning we'll pack up and head back out the same way we came in. Satisfies WTC Experience trip requirements. Permit limits group size and permit costs (about \$10 per person) will be split among the group. This WTC outing is co-sponsored by SPS. Email Mat Kelliher at mkelliher746@gmail.com with contact and carpool info, recent conditioning and experience, including high-altitude experience, for trip status and details. This is a two day backpacking trip to four peaks in the San Bernardino National Forest. This trip features a burnt forest, a waterless lake, and miles and miles of cross country travel with two of the most delightful leaders you will ever meet. On Saturday morning, we backpack in 5.4 miles with 2400 foot gain at a moderate pace from South Fork trailhead to camp at Dry Lake. Sunday, we'll go cross country up to Grinnell mountain (10,284) , then down a gully and back up to Fish Creek Peak (9,942) and 10k Ridge (10,094) , then make our way to Lake Peak (10,161), before heading back to our camp. We'll be traveling over 4 miles cross country and gaining 2000 feet so bring a good attitude, a thirst for adventure, and an ability to push through pain. We'll pack up our camp and head back down the trail Sunday afternoon. If interested, please email me your hiking resume to Su Yi (gosugo@hotmail.com) and cc: my lovely assistant leader Jason Seieroe (jasonseieroe@gmail.com). I: Pilot Knob (12,245') Join us for this moderate three day trip up into the gorgeous Humphreys Basin west of North Lake in the Eastern Sierra Nevada. Friday morning we'll meet near North Lake (9,345') and pack in at a relaxed, but determined pace west along creek side trail and up past a series of gorgeous alpine lakes up to and then over Piute Pass (11,423') before dropping down into the spectacular Humphreys Basin and making our way northwest to our camp for the weekend near the shore of Lower Desolation Lake (11,100'). Expect a day's total of about 7.5 miles with 2,600' gain. After setting up camp, relaxing a bit, and perhaps catching a fish or two, we'll settle in for a festive Happy Hour under the last quarter moon-lit, summer night skies.

Saturday we'll head off cross country to the west and summit the wildly scenic Pilot Knob. After thoroughly enjoying the spectacular views surrounding us up there, we'll head back to our camp and enjoy an afternoon of swimming, fishing, lounging and/or snoozing. Expect a day's total of about 3.0 miles and 1,750' of gain. That evening we'll celebrate with an even more Festive Happy Hour than the night prior. Sunday we'll pack up and then head out the same route we came in on. Amateur anglers need a valid CA fishing license. Permit dramatically limits group size, and permit costs will be split among the group (about \$10 each). This is a WTC Outing co-sponsored by SPS. Join us for a moderately placed relaxing weekend to scenic Mount Ian Campbell in the western Sierra! Well have a late -ish start from Florence Lake and hike up the Dutch Lake trail to set up camp at Crater Lake (3.5 miles/+2000) where we'll have the opportunity to fush, nap, or swim in the lake. That night we'll (hopefully!) have a campfire and enjoy a traditional WTC potluck. Sunday we'll be up early for a short cross country hike to Mt Ian Campbell (1.3 miles/1250) which offers memorable views of the John Muir Wilderness and Kings Canyon high Sierra toward Mammoth Lakes and beyond and even Yosemite and the Ritter Range to the north. Well then return to camp, pack our things and hike out to our cars and post trip Mexican food at one of the hidden gems of the western Sierra.

Moderate 8 mile hike with 1290 elevation gain. The hike wanders through the almost 3000 acres of Santa Monica Conservancy land that was acquired after a long hard battle with real estate developers. Area was hit hard by the Woolsey Fire but there are still some splendid California Valley Oaks that survived. There is enough elevation gain to satisfy those who want to get their heart rates up but enough flat to make this a moderate hike. There will be hiking on single track but also on wider trails. If the weather is warm, there are several places in the hike where the both the distance and the elevation gain can be adjusted. Activities range from short to long, easy to hard, day walks to overnight backpacks, nearby hikes in the city to hikes in our local mountains and wilderness areas. Some events are tailored for families and beginners. Others aim to suit tigers who want a vigorous workout. Weekly conditioning hikes can help get and keep you fit. Wilderness hikes can help you experience the best of scenic Southern California.

So, step away from that sedentary lifestyle and join us. Learn firsthand about the thousands of miles of trails that surround the city from people who know the way. And see the wonders of Southern California's wild side.
